

NON-INSULATED DOORS

Non-Insulated Door Specifications

PAINT
1.0
MIL

Constructed of top quality materials, highly detailed raised panel, deep woodgrain texture and two coat prefinished paint system all combine to enhance the beauty of your home.

CONSTRUCTION

PAINT LAYERS

24gauge metal

Hot dipped galvanized steel construction with hemmed inside return rail provides superior strength and durability.

1.0 mil paint system

Includes .25 mil rust inhibiting primer and .75 mil exterior top coat that resists fading and chalking while providing consistent color from panel to panel, and long life.

ROLLED SAFETY EDGES ON SECTION JOINTS

Eliminates sharp edges, and provides extra strength.

19 Gauge hot dipped galvanized stiles

Heavy duty metal stiles give strong rigid support for all hinges, rollers and operator attachment.

Stiles attached with rivets

Provides superior strength when compared to common sheet metal joining methods.

Tongue and groove meeting rails

For superior strength and better sealing against wind, rain and snow.

Rigid aluminum retainer

Provides added strength while securing replaceable u-shaped bottom weather strips to help keep the elements out.
